

Our school motto, “Respice Finem” or “Look to the End”, reminds us that the decisions we make now, echo beyond us.

Ethos and Vision Statement:

1. To realise our full potential.
2. To consider the results of our actions.
3. To have a spirit of community life.
4. To understand the art of friendly competition.
5. We are a multi faith school and welcome children of all faiths.

Our Life values:

“Respice Finem” summarises the ultimate aim of the School; we endeavour to ensure that by the time pupils leave St Crispin’s School, they are well prepared for their life ahead.

We are an inclusive school and we believe that every child will have access to everything that we do, whatever that may be. We believe that we work best together, and this creates a unique family environment where pupils of all ages help each other and are given a chance to succeed.

At St. Crispin’s we help everyone, developing their potential, building resilience and learning to overcome the barriers in life. Our small class sizes, together with our fully differentiated learning programme ensures that all our children, whatever their ability, remain on target.

From the age of 7, children work with subject specialist teachers to deepen their knowledge and understanding, developing relationships with teachers that will support them through to GCSE. Our Junior School encourages curiosity, independence, and instils a passion for learning confidence grow on a daily basis. We work tirelessly to develop and harness the full potential of every student, helping them become happy and well-rounded.

Our pupils leave St Crispin’s with inspiration and an interest in the world where they have learnt how to thrive and succeed.
